B. KVP Recruiting and Discharges:

- 1. The discharges previously scheduled for the period of 5 to 20 May were already beginning in early April. The assignment of recruits to units was taking place simultaneously. As a result of these measures, training activity was considerably reduced after 1 April.
- 2. Mechanized Division Potsdam has apparently received priority in the assignment of replacements. On 15 April 100 students of the Motor Transport Officers' School in Potsdam were assigned to units. An equal number of students are expected as replacements.

the introduction of universal military service is not scheduled to take place in the near future. With the support of the SED, the KVP will be increased by 65,000 men in the course of 1955.
